

Centeze®

Centeze® Centesis Catheter

Galt Medical Corp. is pleased to introduce the Centeze® over the needle catheter system for centesis procedures. Featuring large skived holes, a smooth transition, and secure slip fit needle design, the Galt Centeze® was designed to enhance ease in every centesis procedure.

- 3 large skived holes to aid in maximum drainage and reduction of clogging
- Tapered tip, smooth transition, and siliconized catheter to aid in insertion
- Echogenic needle with bevel indicator to aid in visibility
- Clear needle hub for flashback confirmation

For more information about Centeze® Centesis Catheter or to set up a meeting with a Galt Sales Consultant call (800) 639-2800.
