# Radiseal™

## Radial Compression Device

### Features

- Marker with different colors leads to precise positioning of Radiseal™: dark blue, white and light blue.
- Transparant device for enhanced visibility of puncture site.
- Three different sizes are available in 3 different colors to ensure optimal and precise for all patients.
  - ✓ *Dark blue = small*
  - ✓ *White = medium*
  - ✓ *Light blue = large*
- Pressure is easily adjusted by speccially designed syringe tip adaptor.
